

COMMUNITY MANAGEMENT APP

EASY TO CONNECT

INTRODUCTION

In the fast-paced environment of modern associations, leveraging automation for administrative tasks offers unparalleled benefits. These advantages extend across membership management, communication, promotions, and engagement initiatives, ensuring streamlined operations and enhanced member satisfaction.

FOR ADMINISTRATIVE CONTROL PANEL THE KEY BENEFITS INCLUDE:

MEMBERSHIP RENEWAL AND PAYMENT COLLECTION

Membership renewal processes ensure:

Timely Notifications: Members receive reminders well before their memberships expire.

Seamless Payments: Integrated payment systems simplify fee collections, offering secure and instant transaction options.

Reduced Administrative Burden: Staff can focus on strategic activities instead of manual follow-ups and processing.

NEW MEMBER ONBOARDING

Automation simplifies the onboarding journey for new members by:

Streamlined Processes: Digital forms and workflows expedite data collection and membership activation.

Welcome Campaigns: Personalized emails or messages guide members through association benefits and resources.

Effortless Integration: Updates ensure new members' details are quickly added to databases and directories.

MEMBER MANAGEMENT

Efficient member management through automation includes:

Centralized Data Storage: A unified platform stores all member information like contact info, social medias, websites, brochures, achievements, reviews, etc making it accessible and up-to-date.

Membership Categorization: Easily segment members based on roles, companies, numbers etc for easy sorting.

Activity Tracking: Analytics provide insights into member participation, interactivity, engagements etc.

FOR APPLICATION USERS THE KEY BENEFITS INCLUDE:

MOBILE APP FOR MEMBERS

A dedicated mobile app enhances member engagement and accessibility by:

Digital Business Cards: Members can share their profiles via QR codes & links embedded in their digital cards, providing instant access to contact numbers, social media platforms, websites, achievements, brochures, products, services etc.

SOCIAL MEDIA-STYLE INTERACTIVE FEED

Members can upload content, including visuals, to a shared feed where others can interact, fostering a sense of community and collaboration.

USER-FRIENDLY DESIGN

Intuitive navigation with multilingual text adding feature.

BASIC CRM FOR CUSTOMER INQUIRIES

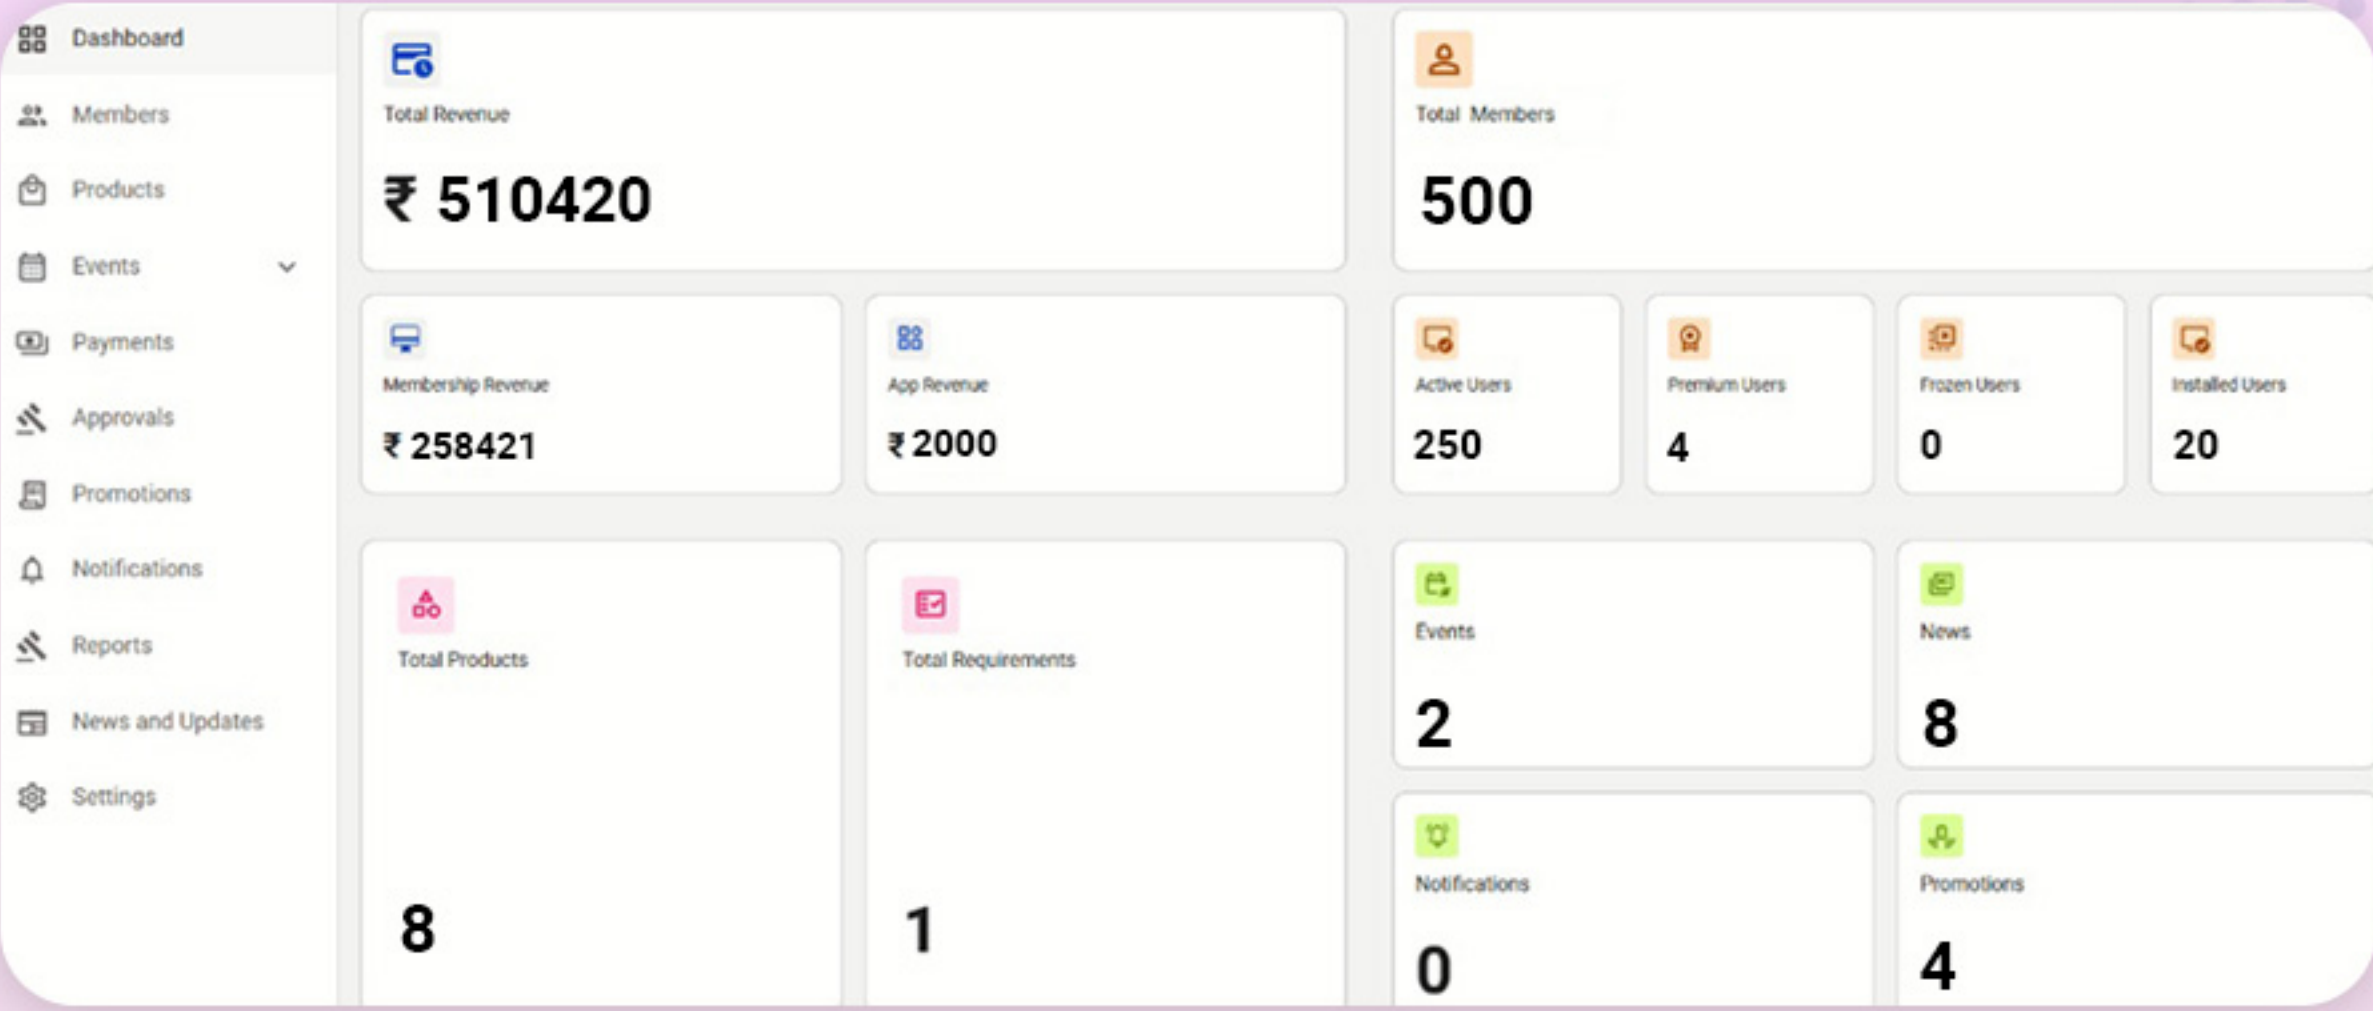

Providing a CRM solution enables:

Efficient Inquiry Management: Respond to customer inquiries effectively

Centralized Communication Logs: For easy follow-up, reporting & brief data collection.

Comprehensive Dashboard Analytics:

Stay informed with a centralized dashboard offering real-time insights into member activity, event participation, and engagement trends, empowering better decision-making for your association.

Member Management:

Efficient member management through automation includes:

- **Centralized Data Storage:** A unified platform stores all member information like contact info, social medias, websites, brochures, achievements, reviews, etc making it accessible and up-to date.
- **Membership Categorization:** Easily segment members based on roles, companies, numbers etc for easy sorting.
- **Activity Tracking:** Analytics provide insights into member participation, interactivity, engagements etc.

The Member Management interface includes a sidebar with navigation options: Dashboard, Members, Products, Events, Event list, Event history, Payments, Approvals, Promotions, and Notifications. The main content area displays a list of members with the following columns: Name, Member ID, Company Name, Designation, Phone Number, Subscription, and Status. The status is indicated by a green 'active' badge. There are also 'Download' and 'Add new member' buttons at the top right.

Name	Member ID	Company Name	Designation	Phone Number	Subscription	Status
Andy Stoops	50	Soylent Corp	Member	+9190052503	premium	active
Jason DVD	5236	Globex Corporation	Globex test user	+9150152503	free	active
Wallace Beef	22225	Initech	Initech test user	+9177082403	free	active
